Office Action Summary

Application No.

10/086,090

Applicant(s)

MATURANA ET AL.

Examiner

Christopher A. Revak

Art Unit

2131

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 10 April 2002.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-7 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-7 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☒ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 26 February 2002 is/are: a) ☐ accepted or b) ☒ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. _____.
 - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statements (IDS) submitted on March 26, 2002 and April 10, 2002 are in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner is considering the information disclosure statement. The examiner notes that the reference entitled "Packetized SSL Understanding the Advantage" is missing from the file. If the applicant wishes to have the reference considered, the examiner is requesting for the applicant to resubmit the missing document.

Specification

2. The disclosure is objected to because of the following informalities: On page 1, the instant application is a continuation in part of various patent applications that have become abandoned, the status of these applications needs to be updated as abandoned.

Appropriate correction is required.

Drawings

3. Figures 1 and 2 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled

"Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the examiner does not accept the changes, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by "Using the Accelar 710 Server Switch", herein referred to as Accelar.

As per claim 1, it is disclosed by Accelar of a method for handling an application in a communication between a first end and a second end involving an application layer, a transport layer, and a network layer. Network layer packets are received from the first end of communication which packets contain application information provided using application layer processing. The application information is processed using application layer processing. The network layer packets are transmitted toward the second end of the communication, which packets contain information resulting from the application layer processing (page C-1, line 1 through page C-2, line 13).

As per claim 2, Accelar teaches of receiving network layer packets from the second end of the communication, which packets contain further application information

provided using application layer processing. The further application information is processed using application layer processing. The network layer packets are transmitted toward the first end of the communication, which packets contain information resulting from the application layer processing (page C-1, line 1 through page C-2, line 13).

As per claim 3, the teachings of Accelar disclose of transmitting transport layer information from the first end to the second end and transmitting transport layer information from the second end to the first end (page C-1, line 1 through page C-2, line 13).

As per claim 4, Accelar discloses of receiving application layer session messages from the first end and responding to the first end of the application layer session messages (page C-1, line 1 through page C-2, line 13).

As per claim 5, Accelar teaches of receiving and responding to application layer session messages comprising establishing an application layer session with the first end (page C-1, line 1 through page C-2, line 13).

As per claim 6, it is taught by Accelar of maintaining both information derived from transport layer information sent from the first end to the second end and information sent from the second end to the first end (page C-1, line 1 through page C-2, line 13).

As per claim 7, Accelar discloses of associating network packets with the communication using information maintained from the transport layer information and network layer information (page C-1, line 1 through page C-2, line 13).

Conclusion

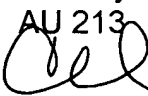

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher A. Revak whose telephone number is 571-272-3794. The examiner can normally be reached on Monday-Friday, 6:30am-3:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ayaz Sheikh can be reached on 571-272-3795. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
